Meeting place for all walks is the car park of Croydon Station on the Kent Ave side near the roundabout for a 9am start. We carpool to minimize our footprint, share the petrol costs and always wear our name tags. Walks within a 30 km radius of Croydon are usually morning walks only; for day walks we travel further afield. Information about the walks is published in the newsletter or available on 9725 9389. Prerequisite - An appropriate level of fitness and some basic equipment, such as waterproof shoes/boots with a good profile sole, a small backpack for water, provisions, mat, hat, rain gear, petrol money and personal items. At the end of Monty Python's "The Meaning of Life", we get the answer that we've all been waiting for to the above question: "Try to be nice to people, avoid eating fat, read a good book every now and then, get some walking in, and try and live together in peace and harmony with people of all creeds and nations".

Hmm.... Well, maybe... . The sub heading of this course says 'meaningless cliché or the most valuable question you can ask?' Quite a few people have pondered the question and our unit will explore both serious and a few lighthearted attempts to address this problem, a problem that just keeps on giving.

Our unit will select from perspectives offered by

- Western philosophy and its principles of Logic.
- East Asian philosophy.
- Science.
- Various religious traditions.
- Key major ideas or themes.
- Imaginative literary works.

The unit will be conducted in a dialogic manner, students' involvement and participation are central to our classes. Some reading, thinking and journal work will be asked of you between each session (1 session every 2 weeks).

THE CLASS IS OPEN TO ANY INTERESTED PERSON, WHETHER OR NOT YOU HAVE STUDIED PHILOSOPHY WITH US BEFORE.

PAUL MARTIN (contact 0422 389 221 if you have any queries)

20 July to 7 December 2018

Paul Martin

Fortnightly, Fri 12:30-14:00

Location : Keystone Clubrooms

Following our broad introduction to reading various genres of Literature in the first half of the year, we are going to focus our reading and studies on some excellent Australian writing in Terms 3 and 4. Once again, our course does not assume that you have any previous formal background relating to the study of Literature. We will concentrate on learning about developing rich, deep and rewarding responses to our reading. Our focus will be on how a close reading, an exploration of a text's views and values and developing creative and imaginative responses to what we read can help us build an awareness of other people, places and cultures.

Our Terms 3 and 4 unit will largely concentrate on some wonderful writers from this part of the globe. It will explore the work of four contemporary authors and, within the constraints of time available, will examine very different examples of Australian literature and the experiences of life they reflect.

Course texts: (to be purchased by the student)

Stasiland Anna Funder (Text Publishing) (an example of what is sometimes called "Literary Journalism")

The Boat Nam Lee (Penguin) (Short Stories)
